About Senus PLC:

Founded by Brendan Allen, Eoghan Finneran and Joe Desbonnet in 2017 and headquartered in Ireland, after 8 years of R&D and implementing projects with marquee clients, Senus is now seeking to establish itself as a leading global provider of Natural Capital management software and technology solutions for Governments, State agencies, financial institutions, corporations, farmers and other landowners. Natural Capital comprises the world's stock of natural resources including soil, air, water and habitats which underpin economies and society. Senus enables clients to optimise the use and preserve the value of their nature related assets.

Senus' proprietary Natural Capital management software and technology solutions enable the 'Measurement', 'Reporting,' 'Verification' and 'Planning' of value chains associated with the use of natural resources in productive industry. Senus' software and technology solutions are licenced directly to corporate and government clients, or through intermediaries such as agronomists or other consultants to end users. Senus transforms complex environmental data into actionable insights enabling clients to proactively manage their Natural Capital to unlock productivity gains and reduce environmental and operational risks.

Senus is currently providing its solutions to clients in Ireland, increasingly in the UK, and has an initial presence in mainland Europe. For the year ended 30 June 2025, Senus recorded revenue of €836,991, serving 138 customer accounts.
