

Senus PLC

Direct Listing on Euronext Access Dublin

Dublin, Ireland, 18 December 2025, Senus PLC ("Senus" or the "Company"), the Irish headquartered provider of Natural Capital management software and technology solutions, is pleased to announce that the Company's application for admission to listing on the + segment of the Euronext Access market in Dublin through a Direct Listing has been approved by the Euronext Listing Board. Trading is expected to commence at 8.00am on 22 December 2025 under the ticker code SENUS and ISIN IE000O0F49R3.

About Senus

Founded by Brendan Allen, Eoghan Finneran and Joe Desbonnet in 2017 and headquartered in Ireland, after 8 years of R&D and implementing projects with marquee clients, Senus is now seeking to establish itself as a leading global provider of Natural Capital management software and technology solutions for Governments, State agencies, financial institutions, corporations, farmers and other landowners. Natural Capital comprises the world's stock of natural resources including soil, air, water and habitats which underpin economies and society. Senus enables clients to optimise the use and preserve the value of their nature related assets.

Senus' proprietary Natural Capital management software and technology solutions enable the 'Measurement', 'Reporting,' 'Verification' and 'Planning' of value chains associated with the use of natural resources in productive industry. Senus' software and technology solutions are licenced directly to corporate and government clients, or through intermediaries such as agronomists or other consultants to end users. Senus transforms complex environmental data into actionable insights enabling clients to proactively manage their Natural Capital to unlock productivity gains and reduce environmental and operational risks.

Senus is currently providing its solutions to clients in Ireland, increasingly in the UK, and has an initial presence in mainland Europe. For the year ended 30 June 2025, Senus recorded revenue of €836,991, serving 138 customer accounts.

Private Placement and Direct Listing

Prior to the Direct Listing Senus has completed a Private Placement raising gross proceeds of €1.1 million to finance the next phase of growth. The Directors believe that now is an optimum moment for Senus to become a public company and to leverage the listing to establish the Company as a global leader in enabling technologies for Natural Capital services.

The Company intends to use its public profile to more quickly, and economically, build trust and awareness of Senus and its solutions with customers in its targeted verticals both domestically and internationally. By executing its plan for growth in a public forum Senus is seeking to incrementally build relationships with a global universe of investors, capital providers and intermediaries to position the Company to access further capital, as and when opportunities for further growth initiatives arise.

Acquisition Strategy

In November 2025 Senus completed its first acquisition, a highly complementary firm with whom it had been partnering since 2022. It acquired Loamin Ltd., a geospatial intelligence company focused on the development of novel AI to support the monitoring of Natural Capital projects. Senus has a pipeline of further acquisition candidates which it will pursue to accelerate growth and expand market reach where there is commercial, technical and cultural fit.

The listing gives the Company additional currency with which to make acquisitions of synergistic enterprises such as Loamin, to acquire complementary products, technologies, distribution channels, personnel or infrastructure that enhance the Company's technology, route to market or customer footprint.

Investment Case

Senus is an early mover with a growing reputation in the Natural Capital market and an eight-year track record of delivery with a portfolio of marquee customers:

- Significant, but nascent, market for Natural Capital technology solutions set for strong growth.
- Proprietary software and technology solutions, developed specifically for Natural Capital management, provides a fast, affordable and scalable solution with international application.
- An abundance of new, and emerging, legislative and regulatory drivers, in addition to discretionary mandates for participants in Senus' target market.
- Large scale customers and large, multi-annual commercial contracts becoming accessible based off Senus' reputation, trading track record, proprietary technology and regulatory mandates.
- Scalable software as a service business model with attractive economics in addition to expertise for delivering select bespoke projects to sustain Senus' technological advantage.
- Leading industry management with clear mandate for solution delivery and growth.
- Opportunity for the acquisition of niche industry players, to integrate complementary technologies, capabilities, personnel and market positions, in addition to the organic growth opportunity.

Gerard Keenan, Chairman of Senus said:

"We are excited to become a public company at a formative stage for Senus and the Natural Capital market with significant drivers for investment in technologies to support Natural Capital services evident. The Euronext Access market provides an ideal stepping stone for Senus to execute the next phase of our growth, leveraging our standing as a public company to build our profile and access capital to provide more enterprises with Senus' Natural Capital management technology and software solutions."

Brendan Allen, Managing Director of Senus added:

"With 8 years of R&D and projects delivered Senus' Natural Capital solutions are solving acute problems for our growing customer base on the ground every day. We are inspired by the successes we have had with marquee enterprise customers and independent end users alike, changing how they measure and manage natural resources to optimise the use and preserve the value of their nature related assets. With this experience, the Senus team is ideally positioned to pursue a significant emerging market opportunity, bringing the capabilities of our proprietary Natural Capital management software and technology solutions to a much broader international audience."

About Assiduous

Assiduous is Senus' Listing Sponsor, and the world's first Neo Sponsor. An Irish headquartered financial technology business, Assiduous is building the AI native Corporate Finance Autopilot® to eliminate barriers to capital markets for small and medium sized companies, like Senus, through technology. Assiduous is partnering with Euronext to facilitate SMEs listing earlier in their lifecycle. With Assiduous, SMEs can grow through their formative stages as public companies, benefiting from the transparency and disclosure of public markets to attract investors and incrementally access capital to finance growth and liquidity. Assiduous' Neo Sponsor model is designed to streamline the admission process, eliminate unnecessary transaction costs and drive boards and management teams to grow their audience through focused business execution and investor relations, leveraging the latest available software innovations.

The Euronext Access market is specifically designed for growing SMEs, with tailor-made trading and regulatory regimes suitable for small and mid-sized growth companies. With more than 170

companies listed on Euronext Access venues in Paris, Brussels and Lisbon, Assiduous is pleased to launch its Neo Sponsor solution by bringing Senus PLC as the first company to list on the newly launched Euronext Access venue in Dublin.

Companies listed on the Euronext Access+ market are not subject to the same rules as companies listed on a regulated market. They are subject to a less extensive set of rules, tailored to smaller growth companies. Therefore, the investment risk in companies listed on Euronext Access+ may be higher compared to investing in companies listed on a regulated market. Prospective investors should read the risk factors described in Section 2 of the Information Document prepared for Admission. The occurrence of one or more of these risks could have a significant adverse effect on the Company's business, reputation, financial position, results, or outlook. The Information Document will be available free of charge from the investor section of the Company's website www.senus.com.
